have installed the Real Statistics Resource Pack you can use the Real Statistics functions in the same way as you use the built-in worksheet functions supplied with Excel. You only need to delete the previous version of the resource pack and put the new version of the software in the same location as the previous version. E.g., in Windows 10 you can do this by opening Settings and then type Show Hidden Files and Folders in the search field. Select File > Help|Options > Add-Ins and click on the Go button at the bottom of the window (see Figure 1). If you are using Excel 2003 or a prior version of Excel click here.
